Post-Construction Stormwater Control Manual Coming Soon!

The GLRC formed a Post-Construction Stormwater Control Technical Workgroup to develop a template manual for GLRC communities to adopt as their own. The manual includes detailed design standards, policies/procedures and a draft ordinance for post-construction stormwater controls that meet permit requirements.

The manual will generate not only an equitable environment across the region for new development and redevelopment, but will help to improve and protect water quality. The manual will be completed the first of next year. You can still participate in the workgroup, contact Erin Campbell for more information.

Green Infrastructure Vision Poster Plan

The regional green infrastructure vision poster plan is complete! The poster plan includes the green infrastructure map, implementation tools and an overview of planning projects in the region. TCRPC will continue to meet with your boards and commissions over the next several months to promote the plan.

City of Lansing IDEP on the Grand River - Draw Down

Eaton Conservation District Awarded 319 Non-Point Source Grant Funding for the Grand River Watershed!

The Eaton Conservation District has been awarded \$166,451 in grant funding from the Michigan Department of Natural Resources and Environment (MDNRE). The grant will develop a comprehensive watershed management plan for the Grand River. Once the plan is approved, priority areas will be eligible for grant funding to implement best management practices to improve and protect water quality. The GLRC and our members will play an important role in the development and implementation of the plan.

MSU Institute of Water Research Seeks Out Grant Funding

The MSU, Institute of Water Research has applied for a 319 Non-point Source Program Grant from the MDNRE. The purpose of this grant is to develop a comprehensive watershed management plan. Specifically identifying/prioritizing areas to protect and improve the water quality of the Red Cedar River and its tributaries.
