

# Picking up after your pet isn't just polite, it protects the environment!

**10 million tons** of dog waste are produced every year in the United States alone, and **just one gram can contain as many as 23 million fecal coliform bacteria.** (CDC, US EPA)

**Dog waste is a major contributor to stormwater pollution.** Dog waste that isn't picked up is carried into rivers, streams and drains by stormwater runoff, contaminating our water resources.

**All runoff in the Grand River watershed** (below) eventually makes its way into the Grand River and Lake Michigan. It doesn't matter if your dog lives miles from a stream or river; its waste can impact water quality close to home and further downstream.

## The Tri-County Area has many Dog Friendly Parks!

Visit them responsibly: ★

### Off-Leash

Soldan Dog Park  
1601 E Cavanaugh Rd, Lansing, MI

Northern Tail Dog Park  
6400 Abbot Rd, East Lansing, MI
